

Advice in County Durham Network

As a growing network we want to continue to raise the profile of the partnership. We need to work together to so that we can make sure that those in need within our community have better access to the advice they need. We are always looking to invite new members and grow the network.

Do you know of any group, organisation, community venue or service that would benefit from being part of the Advice in County Durham Network? Any group sharing the 'No Wrong Door' ethos?

Please let Kate Burrows, Network Development Officer for Advice in County Durham, know of anyone we should be inviting to join the network. Either contact her directly or complete this form now... (please feel free to send the form to us at anytime...)
